

TOWN OF EATON

APPLICATION for a BOUNDARY LINE CHANGE

Fee: \$50 - \$125

Applicants please note:

*Applications are due by the second Monday of the month.

*Applicant(s) must provide a plat or map of the parcels affected by the proposed adjustment, showing all existing buildings, the location of existing utilities or other easements or rights-of-way, of wells or septic systems. The map shall show the existing lot lines and the location of the proposed new lot line, and the existing and new setback distances to any buildings.

*If, at a sketch plan conference, the Planning Board determines that the subdivision involves only the relocation of a boundary line between two existing lots, or the combining of two existing lots into a single, larger lot, then, upon the making of the hereafter stated findings, the Planning Board may waive the application of these regulations and allow the applicant to prepare and present a final plat showing the redefined boundary line to the Planning Board for approval:

a. that the lot or lots to be created are all in conformance with the zoning ordinance and subdivision requirement in regard to lot size and dimensions and road access;

b. that no environmental or other factors are present which could restrict development on the reconfigured lot(s), or otherwise create a risk to the public health, safety or welfare.

*Upon the making of such findings, a public hearing shall not be required, and the Planning Board may waive any requirements to provide a survey of the entire affected lands as long as the survey presented adequately defines the new boundary line and the applicant has provided sufficient information (tax maps, etc.) to allow the Board to make the above-stated findings.

Part 2 - Impact Assessment. The Lead Agency is responsible for the completion of Part 2. Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?		
2. Will the proposed action result in a change in the use or intensity of use of land?		
3. Will the proposed action impair the character or quality of the existing community?		
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?		
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?		
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?		
7. Will the proposed action impact existing: a. public / private water supplies? b. public / private wastewater treatment utilities?		
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?		
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?		

	No, or small impact may occur	Moderate to large impact may occur
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?		
11. Will the proposed action create a hazard to environmental resources or human health?		

Part 3 - Determination of significance. The Lead Agency is responsible for the completion of Part 3. For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

<input type="checkbox"/> Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.	
<input type="checkbox"/> Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
